Subject: Portobello Baths

Please send me all documents, agendas, minutes, costings, estimates and communications from the last five years relating to Portobello Baths, or any other names to which it has been referred, or to any other general points of discussion under which it would be included. I am principally interested in learning what has been said or written about the baths, their current and future use, attitude towards maintenance, costs of actual maintenance, and funding.

Response

Request closed 01.03.24 following conversation with requester where request was withdrawn.
